GIORGI GIGUASHVILI

WEB DEVELOPER · GITHUB.COM/GRAPSINHO · GIORGI GIGUASHVILI

I'm an aspiring programmer with self-taught skills in HTML, CSS, Javascript, Git, Python, Django, DRF and PostgreSQL, as well as some knowledge of MySQL. I'm seeking practical experience and opportunities to grow as a developer. Thank you!

SKILLS

- Python, Django&Django DRF, GraphQL
- HTML&CSS(bootstrap), Javascript, Ajax
- Git
- PostgreSQL
- Celery, Redis
- JWT authentication

EDUCATION

PROGRAMMING

Without formal education, I've taught myself programming through practical projects. My learning journey is driven by curiosity and dedication, using hands-on projects as my primary way of learning. My commitment to evolving as a programmer is evident through the skills I've acquired independently.

EXPERIENCE

SOCIAL MEDIA PLATFORM

GitHub Repo: BookFace2

This is a social media platform built with Django, offering features like user registration, profile management, posts, friend requests, notifications, and messaging. The platform includes optimized functionalities for seamless user experience and performance.

E-COMMERCE WEBSITE

GitHub Repo: E-commerce-Store

I successfully developed my first major project, an E-commerce Website using Django. This comprehensive project integrated all my skills, showcasing proficiency in HTML, CSS, Javascript, Python, and database management.
